

HUMIC ACID

12% Humic Acids

(Humic acid percentage claimed is based on an average. Levels may be slightly higher.)

Derived from Mined Leonardite Mineral Deposits

MIXING INSTRUCTIONS

Humic Acid disperses well in tank solution with minimum agitation. It may be combined with most fertilizer solutions using adequate agitation during mixing.
Do not mix with products containing high calcium concentrations.

GENERAL USE DIRECTIONS

POP-UP STARTER: Can be applied directly in the row on the seed.
At a rate of 1-5 gallons per acre.

FOLIAR: Can be applied at a rate of 1-4 quarts per acre as needed.

SOIL: Apply in the fall directly on the soil at a rate of 1-2 gallons per acre.

Always jar test before using.

CAUTION:

KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin. Avoid contact with eyes, skin and clothing. Wash thoroughly with water and detergent.

In case of contact with eyes, wash for 15 minutes with plenty of water, then get medical attention. Wear goggles or face shield, rubber gloves and long-sleeved clothing when handling.

Use with adequate ventilation. Keep away from heat and open flame. Wash thoroughly after handling. Keep container closed during storage.
