

Tara-K

Product Information Sheet

Description and Uses

Tara-K is a liquid, foliar, flexible potassium solution with the highest potassium and sulfur content available on the market. It is highly recommended for lawn and ornamental fertilization programs. Tara-K is compatible with other NPK fertilizers, and can be tank-mixed with most herbicides, insecticides and fungicides.

Potassium is an essential element for a healthy and quality lawn and ornamental fertilization program. It is known to assist in developing healthy root systems and lateral growth. Many professional applicators use potassium when the growth of grass has been slowed by cooler temperatures. Some professional applicators, in areas where there are nitrogen bans, use potassium in summer months.

Benefits and Features

- Promotes Healthy Root Growth
- Increases Lateral Growth
- Boosts Resistance to Environmental Stress
- Non-Burning
- Mixes Well with Other NPK Products
- Non-Staining
- Easy to Handle

Guaranteed Analysis

Soluble Potash (K₂O) 25.00%
 Total Sulfur (S) 17.00%
 (derived from potassium thiosulfate)

Weight per Gallon:

12.2 lbs/gal @ 60°F
 1.43 kg/L @ 15.5°C

FIRST AID:

If Inhaled: Move person to fresh air; If not breathing call 911 and give artificial respiration. Seek medical attention of necessary.

Skin Contact: Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

Eye Contact: If in eyes, immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Seek medical attention if irritation persists.

Ingestion: If swallowed, seek medical attention. DO NOT induce vomiting unless directed to do so by medical personnel.

Acute Health Hazards: Moderate irritant of eyes, skin, and contaminated tissue. Prolonged contact can result in tissue damage which could lead to blindness. Ingestion can be harmful or fatal.

Chronic Health Hazards: Prolonged contact may result in dermatitis (inflammation and redness).

STORAGE & DISPOSAL:

Store above 50°F. Keep container tightly closed. Dispose container/contents in accordance with local, regional, and national regulations.

Net Bulk Weight:

See weight certificate

HAZARD:

Product is not hazardous under normal conditions.

HANDLE THIS PRODUCT PROPERLY. TO ASSURE OPTIMUM QUALITY AND PERFORMANCE: USE CLEAN, AND WELL MAINTAINED EQUIPMENT.

Use in accordance with recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

Desired lbs. of K	Ounces Tara-K	Annual Application		
		4X	6X	8X
0.25	10.5	1	1.5	2
0.5	21	2	3	4
1.0	42	4	6	8

Dilute at a ratio between 3:1 and 5:1.
