

Tara-Edge

Product Information Sheet

Description and Uses

Tara-Edge is a liquid fertility blend utilizing highly effective sources of Nitrogen, Micronutrients, and Iron providing quick green-up, long-lasting effectiveness, and superior economics.

Tara-Edge is designed to be an all-in-one, simple-to-use product for foliar lawn and ornamental applications. It is compatible with other NPK fertilizers, and can be tank-mixed with most herbicides, insecticides and fungicides. Tara-Edge is blended with a long lasting source of liquid nitrogen with a release pattern of 8-10 weeks.

Benefits and Features

- Quick Green-Up
- Non-Staining
- Non-Burning
- Easy to Use and Handle
- No Agitation Required
- 72% Slow/Controlled Release Nitrogen
 - Increased Absorption & Translocation
 - Resists Leaching & Reduces Volatilization

Guaranteed Analysis

Total Nitrogen (N)15.4%
 4.3% Urea Nitrogen
 11.1% Other Water Soluble Nitrogen*
*Slow Release Nitrogen derived from Urea-Triazone
 Chelated Iron. 1.5%
Derived from Iron Citrate

Other Ingredients Include: Micronutrients (derived from seawater and kelp), Humic Acid, Plant Growth Stimulants, Carbon, and Advanced Surfactant

Weight per Gallon:
 10.2 lbs/gal @ 60°F

FIRST AID:

If Inhaled: Move person to fresh air; If not breathing call 911 and give artificial respiration. Call poison control center or doctor for treatment advice.

Skin Contact: Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

Eye Contact: If in eyes, immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Call poison control center or doctor for treatment advice.

Ingestion: If swallowed, seek medical attention. DO NOT induce vomiting unless directed to do so by medical personnel.

Acute Health Hazards: Eye contact may cause eye irritation. Repeated or prolonged skin contact may cause skin irritation. Ingestion may irritate the gastrointestinal tract.

Chronic Health Hazards: No known chronic effects.

Net Bulk Weight:

See weight certificate

Application:

This blend of slow release nitrogen, non-staining iron, and advanced micronutrition is designed for foliar application on St. Augustine turf at a rate of 13 ounces per 1,000 square feet for typical every other month usage. Refer to chart below for information regarding other application rates and frequencies. Dilution in 3-5 gallons of water per 1,000 square feet is recommended.

Ounces of Edge	Annual Application of Nitrogen			
	4X	6X	8X	10X
10	0.48	0.73	0.98	1.22
13	0.65	1.0	1.33	1.66

Hazard:

Product is not hazardous under normal conditions.

HANDLE THIS PRODUCT PROPERLY. TO ASSURE OPTIMUM QUALITY AND PERFORMANCE: USE CLEAN, AND WELL MAINTAINED EQUIPMENT.
